Part 2- Additional Information

1. Shortcuts for reviewing fraudulent work.

When a transcript has to be completely rewritten, special checkboxes will override all other scoring options.

In addition to the “Transcript is unrelated to the media” option described above, there will be custom checkboxes if the original transcript was blank or included a “BLANK AUDIO” or “INAUDIBLE” tag only, but the audio was transcribable.

These options will only appear if the original transcript meets these conditions.
